DOOR INSTALLATION
 \$

NOTE: Client to pay Installation Contractor

Important - Door Installation

Client acknowledges and agrees that the door installation as quoted is in addition, extra to retail sell price. Allow 10 -17 days after measure for completion of custom door installation. Please refer to Oben Door Installation Procedure Sheet.

Client to pay quoted installation price COD direct to Installation Contractor upon completion of the shower door installation. **Customers Signature** _____

Shower Door Installation Procedure

STEP
1

Quote Customer Door Installation from current Price List.

Note: Door installation cost does not include Pre-formed Threshold installation. Customer must select contractor of their choice to install faucets and Pre-Plumbed Threshold.

STEP
2

Call Oben Glass Dealer for Shower Door Measure

Important: All tile work must be completed before measurements can be taken.

After Pre-formed Threshold has been installed and tile work has been completed, contact Glass Dealer to arrange for an installer to visit job site to measure your custom shower opening. All glass is custom made to the exact shower dimensions ensuring a perfect fit every time.

STEP
3

Shower Door Installation

Glass Dealer will install shower door. Allow 10 - 17 days after measure for completion of custom shower door installation.

STEP
4

Customer Pays Shower Door Installer

Customer pays quoted installation price COD direct to installation contractor upon completion of shower door installation.

The contract with installer is strictly between the customer and the installer.

Door installers are independent contractors and not Oben employees.

Oben makes no representation or warranties whatsoever with respect to the workmanship of the installer, and assumes no responsibility.
